It's Your Life...
are you ready?

June 2022

Are you struggling with trying to keep up with everything your friends do?

As you begin to venture out with friends independently, you will notice different spending habits among your group. Some friends may not think twice about buying the newest game, while others may have a more conservative approach. Sometimes these differences are hard on the friend who has the stricter limits on spending, however establishing good spending habits from a young age is essential to success. It may be difficult to understand, especially when you want to keep up with your friends. But saving money will only provide for a brighter tomorrow.

Budgeting is a great way to make sure you get the best of both worlds. Understand that if you say yes to every opportunity to spend money, you will go broke! Plan out a fun adventure with your friends once a month and stick to more budget friendly options during the remainder of the month. It's important to have fun, but restrictions will set you up to conquer your savings goals.

Here at Interior FCU, we know our teens are tech savvy, that's why we offer a Mobile App that is easy to use and up to date with the latest features. Here are a few features that will keep you on track with your spending!

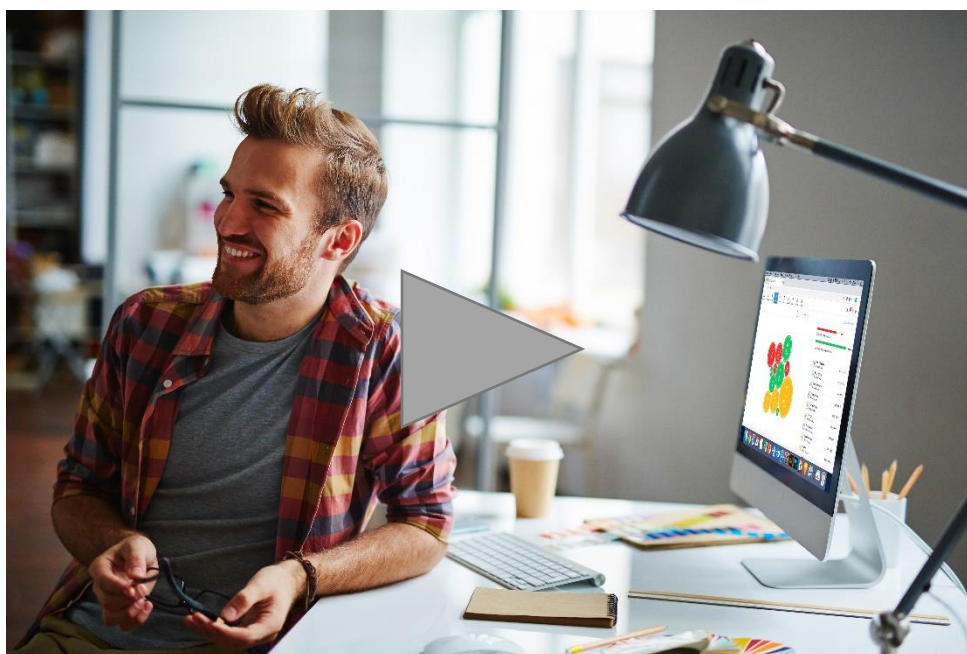

1. [Money Management](#)
2. [Card Management](#)
3. [Digital Wallets](#)
